THE APPRAISAL OF CONTENT IS TENTATIVE.  
(FOR KEY SEE RELEASE)

1. The State Machinery and Drilling Equipment Factory (Przedsiębiorstwo Państwowe Fabryka Maszyn i Sprzetu Wiertniczego) located at Glinnik Mariampolski, three kilometers north of Gorlice (R50/Z34), employs 1,200 workers, of which approximately 156 are technicians and engineers. The factory produces large drilling equipment, telescopic masts, drills, cutters, weights, and spoons (sic), and also repairs old machinery and tools.
2. The oil industry is suffering from an acute lack of drilling pipes. As a result of this, the industry has ordered that drilling pipes be extracted from old, inactive wells in all oil fields; for example, 5,000 running meters of pipe are to be extracted from the Krosno (R50/Z74) oil field (Krosnienskie Kopalnictwo Naftowe).
